Job Title: Wildlife Care Specialist  
Employee Classification: Hourly (Seasonal, Non-Exempt)  
Reports To: Coordinators of Wildlife Rehabilitation Clinic

**Position Summary:**  
The Wildlife Care Specialist (WCS) provides care for wildlife in the Wildlife Rehabilitation Clinic, including: performing intake exams, providing medical care, performing animal husbandry duties, and hand-rearing neonates. The WCS also cleans and maintains wildlife facilities; interacts with and educates the public via the Wildlife Helpline and informal interactions; and trains and supervises volunteers and interns.

**Dates of Employment:**  
This is a seasonal position from March-October. Two positions will be filled. One employee will be scheduled to work 40 hours per week, and the other will be scheduled to work 16 hours per week. Weekend availability is required.

**Essential Functions:**

- **Animal husbandry** - Under direction from Coordinators, follows animal husbandry and care protocols for all patients to provide daily care, including: feeding, cleaning, setting up appropriate habitats, providing enrichment, observing and documenting animal behavior and physical condition, record keeping, capturing and restraining animals, and transporting animals. Follows protocols to hand-rear neonates.

- **Wildlife medical care** – Under direction from Coordinators, follows treatment plans for each patient, including: administering medications and fluids, tube-feeding, wound treatment, fracture treatment, and providing physical therapy. Occasionally performs intake examinations on patients to diagnosis injuries and performs fecal exams.

- **Facility upkeep and repair** – Maintains animal, staff, and guest areas within the clinic and pre-release area including: ensuring all animal areas are secure and free of hazards at all times; ensuring USDA standards are being met in all areas; adhering to all cleaning and task schedules; performing maintenance checks as assigned; performing yardwork such as leaf and snow removal, tree trimming, grass mowing/weed-whacking, and refreshing substrates; installing habitat furnishings; performing minor repairs within habitats and of equipment; and cleaning public pathways and inspecting these areas for hazards.

- **Resource inventory and procurement** - In collaboration with Coordinators, follows established procedures to inventory, manage and procure resources such as food, supplies and medications. Ensures all items are stored properly.

- **Communication** – Effectively communicates updates, issues and needs with team members and Coordinators in a timely manner. Effectively communicates pertinent information to volunteers and interns, including updating written materials.

- **Helpline and guest interaction** – Answers Wildlife Helpline to ensure callers get timely, accurate information and customer service standards are met. Delivers high level of empathy and education to callers and finders. Solicits donations and ensures donation collection process is followed.

- **Volunteer and intern training and supervision** – In collaboration with Coordinators, trains and develops volunteers and interns and provides daily supervision and recording of hours.

- **Programs and events** – Participates in, supports, and/or leads Howell Nature Center programs and events as assigned.

- **Special projects as assigned by the Coordinators, Manager, Director and CEO.**
**Entry Requirements**

Knowledge of native Michigan wildlife; ability and experience in providing care for wildlife; ability and experience in capturing and restraining wildlife; knowledge of and ability to provide medical care for injured and orphaned wildlife; ability to clean, maintain, and repair (minor) facilities; ability to communicate effectively with supervisors, volunteers, team members and veterinarians; ability to supervise volunteers, and interns; ability to interact with members of the public, often in high-stress situations; ability to remain calm under pressure; integrity, adaptability, problem-solving, judgment, and patience; Bachelor’s Degree in related field.

**Job Specifications and Physical Requirements:**

The requirements described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
